2007-08 Annual Report
Mid-Michigan Health Sciences Libraries
A regional group of the
Michigan Health Sciences Libraries Association

The Mid-Michigan Health Sciences Libraries membership as of 2008 consists of the health sciences librarians of Michigan State University and Sparrow Health System (a MSU teaching hospital)

M-MHSL hosted a CE class for members statewide on the topic of the new OVIDSP platform. Trainers from OVID were on hand at the MSU Library to present this workshop.

M-MHSL has begun plans to host the MHSLA Annual Conference in 2010 in East Lansing, MI at the Kellogg Center on the campus of Michigan State University. Arlene Wesimantel is Local Arrangements Chair.

Discussion on the topic of merging with ERHSLA, another regional group of MHSLA was not seen as beneficial to either of the regional groups and was voted down.

A new health sciences librarian, Abe Wheeler whose responsibilities will be to the MSU College of Osteopathic Medicine, has joined MSU.

Respectfully submitted,

Michael Simmons
